A HOME WITH A VIEW

Greentech City offers residents smart homes in the midst of nature's bountiful beauty

WHAT: The launch of Greentech City by Sanjeeva Realty, with its array of internationally-styled smart homes, duplex homes, boat homes, convention centre and golf course, and the announcement of heartthrob Dev as brand ambassador. **AT:** Vedic Village, Rajarhat, with access to Best Western Premiere International Spa Resort, and the medical spa Sanjeeva.

WHAT WE LOVED: Think of the best of nature—greenery, a floating lake, and a golf course—and the optimum international luxury and contemporary living, and you have Greentech City. There's a home just right for you. The smart homes start at ₹17 lakh, but this pays for the entire rejuvenating realm of Greentech City, and not just the area of your home. Actor Dev, who just bought himself a coveted aqua home, said this was what encouraged him to agree to be brand ambassador.

SEVEN WONDERS

A new collection of bridal jewellery based on the modern version of the seven vows

WHAT: The launch of Azva, the wedding jewellery collection by the World Gold Council.

AT: The Oberoi Grand, Kolkata
WHAT WE LOVED: The collection comprising neckpieces, earrings and bracelets was showcased by actor Esha Gupta. Crafted in 22k gold, the collection is made up of statement pieces. Though the pieces are bridal, they are detachable and hence more versatile. We loved that the inspiration behind the collection was 'Saat Pheras' or seven vows.

BITE BY BITE

Weight loss, fitness and a healthy lifestyle await at new clinic Diet Mantra

WHAT: The launch of the clinic, Diet Mantra, powered by well-known nutritionist Namita Jain. **AT:** 74/4 Pandit Madan Mohan Malaviya Sarani (Chakraberia Road, North), Kolkata and Guwahati Kachari Basti, Ullubari Guwahati
WHAT WE LOVED: With obesity rates rising worldwide, the quiet, confident stance of dietician Namita Jain is just the right panacea that Kolkata and Guwahati needed with the launch of Diet Mantra clinic. As those battling bulge will tell you, it's not so much the workouts as the idea of giving up on favourite foods that is the real issue with weight loss. Diet Mantra, with its individualised diet plans and mantra against deprivation, would look to be a workable solution. The one-to-one counselling apart, management of diseases such as diabetes and thyroid is also one of the highlights of the clinic.
PRICE POINTS: As per customisation and monthly packages. ●
